Quadro

كوادرو

We know how to feed your crop

- Sub acidic pH fertilizer, it could be used for hard and salt water
- High quality and purity fertilizer
- Free of Chlorine and Sodium
- High and Fast solubility in water
- Fast absorption from the plant
- Low Electrical Conductivity
- Low precipitation for any salt present in the irrigation water, avoiding clogging of nozzles
- The nutrients inside Quadro are fast and easily available for the plants

Quadro

Composition (w/w %)

	N (Total)	P2O5 Sol. in H2O	K2O Sol. in H2O	MgO Sol. in H2O	B Sol. in H2O	Fe Sol. in H2O (EDTA)	Mn Sol. in H2O	Mo Sol. in H2O	Zn Sol. in H2O
